

Product Specifications

Product Name		Tungsten (W) Sputtering Targets
Chemical formula		W
CAS Number		7440-33-7
QSAM supplier item code		DPMA74ST
Product type		Single element
Purity range		99.95%
Diameter	Min.	0.5"
	Max.	18"
Relative density		95%
Boiling point		5660°C
Melting point		3410°C
Appearance		Silvery solid, no odor
Backing plate and bonding		Cu or Mo backing plate with indium bonding
Typical lead time		3 weeks
